Addressing Privacy Concerns

The Family Educational Rights and Privacy Act (FERPA) permits communication about a student of concern in connection with a health and safety emergency. Observations of a student's conduct or statements made by a student are not FERPA protected. Such information should be shared with appropriate consideration for student privacy.

Note: Health records created or maintained by a physician, psychiatrist, psychologist, or other recognized professional acting or assisting in that capacity, are subject to HIPAA Privacy Rule's restrictions on use and disclosure and cannot be released to a third party without written consent from the student.
