Name & Contact Info (email/tel): _____

Could your research activities require export licenses?

If you answer "YES" to any of the questions above, there could be an export license review required before you begin your activity. UCSD's Export Control Office can assist in license reviews and filing export licenses to support your research activities. The U.S. government licensing process could take 6 weeks to 3 months to obtain.

Contact export@ucsd.edu for an export review.
