ANNUAL LEARNING EVENT
FEATURING SHOLA RICHARDS

Shola will introduce workshop participants to the spirit of Ubuntu, an African word that is often translated to mean "I am, because we are." This simple but powerful message will serve as the core message of these workshops on how to build cohesive, effective teams that embrace positivity, creativity, innovation, and connectedness.

There will be one workshop for people managers and one for individual contributors - see details on the right.

UC LEARNING CENTER

Our Learning Management System (LMS) is the UC Learning Center (ULC). For our instructors, this summer we will be introducing a short online course that instructors will need to complete before receiving instructor access to the ULC. In the meantime, check out your Instructor Guide at blink.ucsd.edu/HR/training/uclc/instructor for more information.

If you have any questions or experience any issues with the UCLC, please contact the Staff Education & Development Learning Technologies Team through https://ask.ucsd.edu and select “UC Learning Center” as the Primary Category.
