UC Learning Center: Disabling Pop-Up Blockers

In order to launch online courses within the UC Learning Center, pop-up blockers must be turned off. This guide will walk you through disabling pop-up blockers in four supported browsers.

Microsoft Edge
Mozilla Firefox
Google Chrome
Mac Safari

Which version are you using?
In order to disable pop-up blockers you may need to know which version of your preferred web browser is currently running on your computer. This guide only includes browsers that currently support the UC Learning Center. We recommend that you update to the latest version of your preferred browser for best results.

Open the Microsoft Edge browser. Click the Settings button and then click Help and Feedback, followed by About Microsoft Edge. This will tell you which version of Edge you are currently running.

Open your Mozilla Firefox browser. Click the Menu button and then click Help, followed by About Firefox. This will tell you which version of Mozilla Firefox you are currently running.

Open your Chrome browser. Click the More button and then click Help, followed by About Google Chrome. This will tell you which version of Chrome you are currently using.

Open your Safari browser. Click the Safari tab and select About Safari. This will tell you which version of Safari you are currently running.
How to disable the Microsoft Edge pop-up blocker (version 88.x and above)

1. Click the **Settings and More** button and then click **Settings**.

2. From the **Settings** page, click **Cookies and Site Permissions** on the left menu, followed by **Pop-ups and Redirects** on the right menu.
3. Click the toggle bar next to the **Block** option to unselect it.

4. Alternatively, you may wish to set your browser to only allow pop-ups from the UC Learning Center. On the **Pop-up Blocker and Redirects** page, click “Add” on the **Allow** menu.

![Allow](image)

5. Type in the URL of the site you wish to allow pop-ups from and click **Add**. By adding the UC Learning Center ([https://uc.sumtotal.host](https://uc.sumtotal.host)) to the list of allowed websites, your browser will allow any pop-ups from the UC Learning Center while it continues to block pop-ups from other sites.
How to disable the Mozilla Firefox pop-up blocker (version 88.x and above)

1. Click the **Menu** button and select settings.

2. Click the **Privacy & Security** panel.

3. Under the **Permissions** section, uncheck the box next to **Block pop-up windows** to disable the pop-up blocker altogether.

4. If you wish to only allow pop-ups from UC Learning Center, not from every site, click **Exceptions** to open a dialog box with a list of exempt sites. Type in the URL of the site you wish to allow pop-ups from and click **Allow** and then **Save Changes**. By adding the UC Learning Center (https://uc.sumtotal.host) to the list of allowed websites, your browser will allow any pop-ups from the UC Learning Center while it continues to block pop-ups from other sites.
You can specify which websites are allowed to install add-ons. Type the exact address of the site you want to allow and then click Allow.

How to disable the Google Chrome pop-up blocker (version 90.x and above)

Disabling Pop-up Blockers in Chrome is the same whether you are using a PC or Mac computer.

1. Click the **More** button and then click **Settings**.

2. Click **Privacy and Security** on the left menu and then **Site Settings** on the right menu.

3. Click **Pop-ups and Redirects** on the following page.
4. Under the Default Behavior section, click the radio button next to **Sites can use pop-ups and redirects**.

5. If you do not want to allow all sites to have pop-ups click “Add” next to **Allowed to send**
6. Add the URL of the sites you wish to allow pop-ups from. Then click **Add**. By adding the UC Learning Center (https://uc.sumtotal.host) to the list of allowed websites, your browser will allow any pop-ups from the UC Learning Center while it continues to block pop-ups from other sites.

Add a site
