Keep it up, UC San Diego.

COVID-19 burnout is real, but the campus positivity rate remains low thanks to the diligence of the Triton community. Keep up the good work by remembering to:

- Wear your face covering.
- Complete the daily symptom screener.
- If unvaccinated, get tested for COVID-19 regularly.
- Wash your hands for 20 seconds.
- Sanitize workspaces after each use.
- Add CA COVID Notify to your phone.
