Calling Plans and Associated Charges: Government Subscribers may activate Wireless Service on the calling plans included with your Agreement, as well as eligible Verizon Wireless consumer/retail calling plans, subject to the terms of this Agreement. Subscribers may take advantage of promotions or purchase Equipment at corporate pricing, but this may require a Line Term extension after initial activation. Some calling plans or monthly access price points may not be available in all markets. Subscriber's first partial and full month's access and any activation fees are payable in advance and will not be refunded after activation of the Wireless Service Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on subscriber's phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to the next full minute. Unused minutes and/or Megabytes are lost. On outgoing calls, charges start when subscriber first presses **SEND** or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after subscriber presses **END** or the call otherwise disconnects. Calls made on the Verizon Wireless network are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. In order to gain access to coverage in newly expanding markets, subscribers must periodically dial *228 to update roaming information from voice or Smartphone devices; from the VZAccess Manager, go into "Options" and click "Activation," while in the National Enhanced Services Rate and Coverage Area every three months.
