Support National Cybersecurity Awareness Month (NCSAM) and help everyone learn to use the internet safely and more securely.

WEEK 1: OCT. 1-5
MAKE YOUR HOME A HAVEN FOR ONLINE SAFETY
This week will underscore basic cybersecurity essentials the entire family can deploy to protect their homes against cyber threats.

WEEK 2: OCT. 8-12
MILLIONS OF REWARDING JOBS: EDUCATING FOR A CAREER IN CYBERSECURITY
Week 2 will address ways to motivate parents, teachers and counselors to learn more about the field and how to best inspire students and others to seek highly fulfilling cybersecurity-related careers.

WEEK 3: OCT. 15-19
IT'S EVERYONE'S JOB TO ENSURE ONLINE SAFETY AT WORK
As the lines between our work and daily lives become increasingly blurred, it's more important than ever to be certain that smart cybersecurity carries over between the two. Week 3 will focus on cybersecurity workforce education, training and awareness while emphasizing risk management, resistance and resilience.

WEEK 4: OCT. 22-26
SAFEGUARDING THE NATION'S CRITICAL INFRASTRUCTURE
Our day-to-day life depends on the country's 16 sectors of critical infrastructure, which supply food, water, financial services, public health, communications and power, along with other networks and systems. Week 4 will emphasize the importance of securing our critical infrastructure and highlight the roles the public can play in keeping it safe.

GET INVOLVED IN SOMETHING BIG!
The National Cyber Security Alliance (NCSA) is the leading neutral nonprofit, public-private partnership devoted to educating and empowering our global digital society to use the internet safely and securely. Our core strengths are to educate, convene and amplify.

National Cybersecurity Awareness Month, held annually in October, is co-led by NCSA and the U.S. Department of Homeland Security.

GET INVOLVED ON SOCIAL MEDIA
Use #CyberAware in all your tweets! Like us on Facebook (StaySafeOnline) to view live segments with experts each week and follow us on Twitter (@StaySafeOnline) for the latest news, resources and more.

BECOME A NCSAM CHAMPION
Register yourself and/or your organization as a NCSAM Champion to take action in support of NCSAM—easy and FREE! To register online, visit staysafeonline.org/ncsam.

JOIN THE #CHATSTC TWITTER CHATS
Join our weekly discussion each Thursday in October at 3 p.m. EDT/Noon PDT.

The National Cyber Security Alliance (NCSA) is the leading neutral nonprofit, public-private partnership devoted to educating and empowering our global digital society to use the internet safely and securely. NCSA is a founding partner of the National Cybersecurity Alliance (NCA). The NCA is a collection of organizations representing all sectors of the private and public sectors who support the mission of the NCSA to help educate and empower all Americans to use the internet safely and securely.

The NCSA's mission is to enable consumers and organizations to work together to protect themselves and their digital assets by creating awareness and providing trusted education, resources and tools. The NCSA has been successful in raising awareness of the threats to personal and organizational data and helping to educate and empower more than 500 million Americans to use the internet safely and securely.

The NCSA has also successfully worked with federal agencies, including the National Cybersecurity and Communications Integration Center (NCCIC), and the National Cybersecurity Alliance (NCA) to create awareness and promote cybersecurity education. The NCSA is the founding partner of the National Cybersecurity Alliance (NCA), which is a coalition of organizations representing all sectors of the private and public sectors who support the mission of the NCSA to help educate and empower all Americans to use the internet safely and securely.

The NCSA is a founding partner of the National Cybersecurity Alliance (NCA) and has been successful in raising awareness of the threats to personal and organizational data and helping to educate and empower more than 500 million Americans to use the internet safely and securely.
