The Faculty & Alumni Program provides a fun and educational environment for UCSD faculty and alumni parents with children in middle school or high school to spend time together through engaging hands on projects.

ENGAGE IN HANDS-ON LEARNING

The Faculty Parent Program provides an opportunity for their children to experience our new hands-on learning approach. The workshops are a great way for Faculty and Alumni parents to bond with children, interact with student engineers, and stay involved with our engineering community.

Workshops will be held in the ECE Makerspace where students and parents will be able to work on the projects, apply programming and engineering skills, and engage in hands-on learning!

WORKSHOP DATES

Saturdays, 9AM – 12PM

Workshop #1: 01 – 25 – 2020
Workshop #2: 02 – 15 – 2020
Workshop #3: 02 – 22 – 2020
Workshop #4: 02 – 29 – 2020
Workshop #5: 03 – 07 – 2020

Space is limited. Please contact us if you have any questions! pibinspire@eng.ucsd.edu
